

This is how the County Appraisal District tax maps can appear when opened through Irfanview:

What is IrfanView?

IrfanView is a program that allows you to view and manipulate graphics files.

Why would I want to use this program with <u>REAL-COMP</u> information?

1.You can look up a tax record through <u>*REAL-COMP*</u> InfoSearch, click on the 'maps' link to instantly access the CAD tax map for that property. These maps are very condensed and often difficult to read. When you have IrfanView loaded on your computer, you can view that map through IrfanView software and thereby zoom in on the portion you want to see enlarged and view it clearly.

2. You can also, crop and print, etc. to make the map of a good quality to print out, so that it may be included in a file with other property information printouts.

How do I get a copy of Irfanview?

Infanview is free software for personal use. The publisher requests that if you intend to use this software for other than personal viewing, that you pay a \$12 license fee. The information about how to secure a license for Infanview is available at: http://www.irfanview.com/.

Irfanview can be downloaded from the following link: http://www.tucows.com/preview/194967

Download Instructions:

1.At the first screen, click once on the button to indicate which Windows version you are using. We will select XP for this example.

3. You will see a small window appear with a security warning asking if you wish to run the file, save the file or cancel. Click on 'run' one time.

File Dow	rnload - Security Warning 🛛 🛛 🔀	
Do you	ı want to run or save this file?	
	Name: iview398.exe Type: Application, 884 KB From: theplanet.tucows.com	
	Run Save Cancel	
1	While files from the Internet can be useful, this file type can potentially harm your computer. If you do not trust the source, do not run or save this software. <u>What's the risk?</u>	

4. You may then get a small window that says the publisher is unknown and giving you another opportunity to 'run' or 'don't run' the file.

Internet Explorer - Security Warning			
The pu softwa	blisher could not be verified. Are you sure you want to run this re?		
Nar	ne: iview398.exe		
Publish	Publisher: Unknown Publisher		
	Run Don't Run		
8	This file does not have a valid digital signature that verifies its publisher. You should only run software from publishers you trust. <u>How can I decide what software to run?</u>		

5. After you select 'run' a window will open that says IrfanView Setup. Click 'next' one time.

6. The next window will give you technical info about this version of the IrfanView product. Click next one time.

😼 IrfanView Setup	
What's new in this version?	
Version 3.98 (Release date: 2005-12-24)	^
 Option to support IrlanView by instelling Google Toobar and/or Google Desktop Search (OPTIDNAL I) New Thumbnail window option: Load thumbs from all subfolders (CTRL+ -Apha blending effect added for aldeshow/fullscreen (Properties):Fullsot - New options for fullscreen/sideshow/set test position/alignment Phugh for AFPL Ghosteorigh: PS, EPS, PDF formate (see Properties):Fullsot Support for CGM/SVG formate: CADImage.DLL [Shareware, see i_plugi Support for HDR format [Formats Plugin, thanks Kevin] New option for DigiCam RAW formate: Load half size image (Properties): New effects added: Sepia, R andloge, Fragment etc. (Thanks to GENEE Option to est the start comer for orce and test-layout in batch mode New placeholders: \$M (multipage index), \$d (brector) neme] Most of normal placeholders can be used for "/converte" too Option to hide main window in Thumbnais mode (Properties:>Huiso 11 New lassless JFG dialog option: Set DPI value Set loading option: for Ghostoright, MSID, JFM: Properties:>Plugins New JPG save option: Reset EOF orientation tag New advanced eldeshow dialog option: Play in window mode Command line option for EXE Sideshow: /monitor-X (start on monitor X) 	een) ⊟ nstxt -Pluginx BEN :-
< Back Next >	Exit

7. The next window will ask if you wish to associate any file extensions to automatically open up in IrfanView mode. Scroll down to select the box to the left of TIF/TIFF. This process will cause any file with the .tiff or .tif extension (which includes that CAD tax maps) to automatically open in IrfanView format. After you click the button for TIF/TIFF, then click the 'next' button at the bottom of the window. (See example next page)

8. The next window will tell you that you are ready to install the program. Click 'next' one time.

IrfanView Setup	X	
Ready to install!	🆐 IrfanView	
Destination directory: CAProgram File/Arter/View		
L ₂		
Press the "Next" button to start the installation		
< Back.	Next> Exk	

9. The next window will warn you that you selected a file extension to be opened in IrfanView and will give you a chance to change your mind. If you find that you do not want all .tiff or .tif files to automatically open in IrfanView, it is easy to go back and change this configuration. Click 'yes' one time to proceed.

IrfanVie	w Setup	X
2	You want to change currer Are you REALLY sure?	it associations and to associate are or many file types with IrfanView!

10. You should now see a window that says you have successfully completed the installation process. Click 'done' one time.

12. Now, when you are in <u>*REAL-COMP*</u> InfoSearch and you click on the 'maps' button and select CAD tax maps, the map will automatically open in IrfanView instead of the previous 'Windows picture and fax viewer'.

13. You can use the scroll bars on the right side and bottom of the window to navigate to the portion of the map you want to see.

How do I enlarge and print the portion of the map relating to my search?

1. Click on the 'Zoom Out' button a few times so that you can locate the portion of the map you wish to highlight.

2. While viewing the map through IrfanView, slide the mouse cursor to the top left of the portion of the map you wish to see. Hold down the left mouse button and drag the mouse toward you, creating a box around the section you want.

3. At the top of the screen, click on the 'Edit' menu and choose 'Crop Selection'. This will leave only the portion of the map that you have selected on the page.

4. Next choose the 'File' menu and select 'Print'.

e Edit Inage Options

5. Now you will see a screen that will allow you to prepare the page for printing:

Printer settings:	Print size:	
Printer:	Original size (from image DPI)	Preview:
HP LaserJet 4	Best fit to page (aspect ratio)	
• 💿 Portrait	O Stretch to page (no aspect ratio)	
O Landscape	O Custom: Width: 5.00	
Paper size:	Height: 5.00	
Letter		A AP LINAST SEL
600 DPI Printer setu	O Scale: X Axis: 1.00	
Finter setu	P YAxis: 1.00	
Headnote/Footnote text:	Position:	Multipage images:
Headnote:	Left margin: 0.00	Print current page
	Top margin: 0.00	Print all pages
V Footnote:	Center image	O Pages: to
13212 Dime Box Trail		
	Units: Copies:	Resulting image size on paper:
Hint:\$D = file folder,	leip	
\$F = file name	for 'custom'/'position': Number of copies:	20.3 x 17.2 cm; 8.0 x 6.8 inc
	leip	20.3 x 17.2 cm; 8.0 x 6.8 incl

From this screen we have selected 'Portrait' orientation and 'Best fit to page (aspect ratio)'. The top right hand corner shows a preview of how the map will look on the printed page. At the lower left hand corner of the window, we have selected to add a Footnote by checking that box and typing in the address we are preparing the map for. Now the address will appear at the bottom of the page when printed.

When you have completed your selections, click once on 'Print'.
